

WHO WE ARE

Grenada Fund for Conservation Inc. is a registered non-profit, non-governmental organisation which was established in 2007 and incorporated in 2008.

Our Aim

The Fund aims to support and implement various projects geared at promoting and protecting Grenada's natural resources, working in partnership with local, regional and international conservation agencies.

What We Do

GFC implements projects and engages in advocacy efforts aimed at effecting changes that offer greater protection to endangered national and trans-boundary species. We also undertake projects at the school and community levels and provide logistical support for field work to external organisations working in Grenada.

Project-Snapshot

2011

Tanteen Ocean Wall

RESOURCES

Resources

The Fund is supervised by a nine member Board of Advisors, of whom four are elected directors. These advisors have long been in the forefront of social development and transformation, and collectively bring over 100 years of experience to the Fund.

Under their stewardship, GFC has attracted over US 600,000 in the years since its' inception. These funds were provided by over 25 regional and international donor organisations.

Impact

GFC's work to date has touched the lives of 1000's of beneficiaries in 100 hundreds of households across the nation leaving an indelible mark of Grenada's Conservation landscape.

Our Mission

To inspire and contribute to the conservation of Grenada's natural resources, while enabling local communities to benefit from conservation through education, advocacy and creation of sustainable jobs.

Our Objectives

To raise the profile of Grenada's natural resources and their long term benefits to the population.

To provide technical expertise and assistance to groups and organisations engaged in environmental protection biodiversity conservation and public awareness activities geared at preserving the natural environment.

To fund and implement environmental conservation activities nationwide, in collaboration with local and overseas partners and organisations.

To create sustainable jobs that directly link environmental conservation to the tourism industry and benefit residents in areas of high conservation concern, thereby contributing to poverty reduction in rural communities.
